

light emotions 2009

FLAVER

Accendi gli occhi e guarda la luce, come elemento vitale ed essenziale nelle forme,
nei colori, nelle atmosfere e nelle emozioni che produce e dove si riproduce.

Flaver progetta e crea oggetti nei quali la luce diviene energia vibrante e compenetrante con il nostro ambiente. Luce che è equilibrio e armonia di materia e forma, riflessi e sensazioni. Ricerca, creativa e tecnologica, di sempre nuove ed evolute soluzioni tecnico-esecutive, in linea con le più attuali tendenze del gusto e insieme espressione di una cosciente armonia tra uomo e ambiente. Una marcata sensibilità alle forme e alle soluzioni cromatiche della luce unita a un'efficiente struttura di assistenza tecnico-commerciale e alla grande flessibilità progettuale-produttiva, rendono Flaver un'azienda altamente competitiva e in grado di offrire prodotti di elevato standard qualitativo. Un'attiva e proficua collaborazione con architetti, ingegneri e studi di progettazione permette di soddisfare le più diverse esigenze di mercato. Sia che si tratti di progetti inerenti a modifiche prodotto seriale, sia che si tratti di ricerche ad hoc per apparecchi speciali, sia infine che si tentino nuove potenzialità espressive della luce e delle sue applicazioni.

Turn on your eyes and look at the light, this element so vital and essential in
its shape, colours, nuance, the emotions it produces and the ways it reflects.

Flaver designs and creates objects in which light becomes vibrant energy that penetrates our surroundings and represents harmony and equilibrium of materials and forms, reflection and sensation. Research, creativity, and technology are combined in continuously new and evolved solutions in technique and execution with the latest trends in taste as an expression of conscious balance between people and their environment. Extraordinary sensitivity to the forms and chromatic solutions of light is matched to an efficient technical-commercial assistance structure and remarkable design-productive versatility and makes Flaver a highly competitive company capable of developing products at the highest quality levels. Longstanding collaboration with trusted architects, engineers and design studios permits the satisfaction of needs in a wide range of market segments through design projects for modifications to standard products, research for special illumination technology devices, and the pursuit of all the new expressive potential of light and its applications.
